

The UK's leading hot tub chemical brand

AquaSPARKle Spa Non Chlorine Shock

AquaSPARKle Spa Non Chlorine Shock is a granular product that is ideal for regular oxidation of your spa water. As this does not increase chlorine or bromine levels, bathing can resume shortly after application.

APPLICATION INSTRUCTIONS

1. Maintain pH levels within the ideal range 7.2 – 7.6. If the level is not in this range, adjust.
2. Maintain free chlorine levels in spas of between 3 - 5mg/l (ppm). Maintain bromine levels in the range of 3 – 5mg/l (ppm).
3. Pre-dissolve this product in a clean plastic container at a maximum rate of 10g of product of 0.2 gallon (1ltr) in water. Stir well to ensure product is fully dissolved. Add the resulting solution to the spa whilst the pump (s) are turned 'on'.
4. After shock treatment procedure, allow at least 30 minutes before bathing recommences, leaving the spa cover off for at least one hour.

Dose rates		
Litres	Gallons	Dose rate
1,000	220	11g
1,500	330	17g

Please note: Use AquaSPARKle Non Chlorine Shock weekly or after heavy spa use.
