Revision 19/11/15

SAFETY DATA SHEET

.1 Product Ider	ntifier Aquasparkle Bromine Granul	es		
.2 Relevant Ide	ntified uses of the substance	or mixture a	and uses advised against	
Uses:	For disinfection of pool and sp	a water.		
Restrictions:	At this time we do not yet have	e information	on identified restrictions	
.3 Details of th	e supplier of the safety data sl	heet		
Company:	Complete Pool Controls Ltd			
	Unit 2, The Park			
	Stoke Orchard			
	Bishops Cleeve			
	Gloucestershire			
	GL52 7RS			
Telephone:	+44 (0) 8712 229081	Fax:	+44 (0) 8712 229083	
E-mail:	sales@cpc-chemicals.co.uk			
4 Emergency	Telephone			
Tel:	+44 (0) 8712 229081 (office h	ours)	+44 (0) 1242 300271	(outside of office hours)

2. Hazard Identification

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

Hazard Class	Hazard Statements
Acute Tox. 4 *	H302
Eye Irrit. 2	H319
STOT SE 3	H335
STOT SE 3	H400
Aquatic Acute 1	H410
Aquatic Chronic 1	
For the full text of the	e H statements mentioned in this section see Section 16.

Most important adverse effects

Human Health: Physical & Chemical Hazards: Potential environmental effects: See section 11 for toxicological information. See section 9 for toxicological information. See section 12 for toxicological information.

2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008

Hazard symbols:

!) 🕸

Signal word:	Warning		
Hazard statements:	H302 H319 H335 H400 H410 EUH031	Harmful if swallowed. Causes serious eye irritation. May cause respiratory irritation. Very toxic to aquatic life. Very toxic to aquatic life with long lasting effects. Contact with acid liberates toxic gas	(continu

(continued on Page 2)

2. Hazard Identification...cont

Warning! Do not use together with other products. May release dangerous gases (chlorine)

Precautionary statements:

P102 P273:	Keep out of reach of children Avoid release to the environment
	Store in a dry place.
P405:	Store locked up
P305+351+338:	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing.

Hazardous components which must be listed on the label Sodium Dichloroisocyanurate Dihydrate

2.3 Other Hazards No other information is available.

3. Composition/information on ingredients

3.2 Mixture Chemical nature: Granules Chemical Name Index-No. CAS-No. Sodium Dichloroisocyanurate Dihydrate, 613-030-01-7 51580 - 86 - 0 Sodium Bromide 231-599-9 7647-15- 6 See Section 16 See Section 16

4. First Aid measures

4.1 Description of first aid General Advice:	measures Take off all contaminated clothing immediately.
If inhaled: :	Move to fresh air. Remove contaminated clothing and loosen remaining clothing. Keep at rest until fully recovered. If breathing is laboured and patient cyanotic (blue), ensure airways are clear and have qualified person give oxygen through a facemask. if breathing has stopped apply artificial respiration at once. In event of cardiac arrest, apply external cardiac massage. Seek medical advice. In severe cases pulmonary oedema can be delayed by up to 48 hours.
In case of skin contact:	Drench the skin with plenty of water. Remove contaminated clothing and wash before reuse. If large areas of the skin is damaged or if irritation persists seek medical attention
In case of eye contact:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Consult an eye specialist immediately. Go to an ophthalmic hospital if necessary.
If swallowed:	Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Call a physician immediately.
4.2 Most important sympto	oms and effects, both acute and delayed Can cause damage to the eyes May cause irritation
4.3 Indication of immediate	e medical attention and special treatment needed Treat Symptomatically.

5. Fire fighting measures	
5.1 Extinguishing media: Suitable media:	Water spray or fog (large quantities available)
5.2 Special hazards arising	I from the substance or mixture
Specific Hazards :	Gives off irritating or toxic fumes (or gases) in a fire.
	Decomposition products may include nitrogen and carbon oxides
	Decomposition products include oxygen and chlorine.
5.3 Advice for fire-fighters	
Protective equipment	Fire-fighters should wear full protective clothing and self-contained breathing apparatus (SCBA). Thoroughly decontaminate fire-fighting equipment including all fire fighting wearing apparel after the incident.
Further Information:	Collect contaminated fire extinguishing water separately.

6. Accidental release Measures

	Personal precautions, p Personal Precautions:	rotective equipment and emergency procedures Use personal protective equipment. Provide adequate ventilation. For personal protection see section 8.
6.2 E	Environmental precauti	ons
	•	Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration If the product contaminates rivers and lakes or drains inform respective authorities Local authorities should be advised if significant spillages cannot be contained
6.3	Methods and materials	for containment and cleaning up
		Sweep or shovel-up spillage and remove to a safe place. Prevent formation of dust. Do not absorb spillage in sawdust or other combustible material. Neutralise with Soda ash. Dilute with a large volume of water. Flush spill area with copious amounts of water. Ventilate the area and wash spill site after material pick-up is complete
6.4 F	Reference to other sect	ons For personal protection see section 8

7. Handling and storage

7.1 Precautions for safe handling

Advice on safe handling:Strong oxidising agent. DO NOT MIX WITH OTHER CHEMICALS. Mix only with water.Advice on safe handling:Never add water to product. Always add product to water. Use clean dry dispensing
equipment. Avoid contact with the skin and the eyes.Hygiene measures:Keep away from food, drink and animal feeding stuffs. Smoking, eating and drinking should
be prohibited in the application area. Wash hands before breaks and at the end of the work

day. Take off all contaminated clothing immediately. Provide adequate ventilation.7.2 Conditions for safe storage, including any incompatibilities.

Storage: Keep this product in original, sealed container when not in use. Store in a cool, dry, well-ventilated area.

Fire protection: Normal measures for preventive fire protection

Further information: Keep away from children

Common storage: Keep away from food, drink and animal feeding stuffs. Keep away from combustible material

7.3 Specific end uses

Specific use(s)

No information is available.

8. Exposure control/personal	protection			
8.1 Control parameters Regulatory List: Value:	- EH40 (8 hour TWA) 1.5 mg/mໍ	EH40 (15 min TWA) 2.9 mg/m³		
8.2 Exposure controls Engineering measures	Fume cupboard require	Fume cupboard required when vapours/aerosol are generated.		
Personal protective equ Respiratory protection	ipment Use respiratory protection for chlorin	ne and dust inhalation protection.		
Hand protection	The glove material has to be impermeable to the product/the substance/preparation. Take note of the information given by the producer concerning permeability, break through times, and of special and of special working conditions (mechanical strain, duration of contact). Protective gloves should be replaced at first sign of wear. Due to missing tests no recommendation to the glove material can be given.			
Eye protection	Tightly fitting safety goggles.			
Skin and body protection	Plastic apron, sleeves, boots-if han	pron, sleeves, boots-if handling large quantities		
Environmental exposure	Environmental exposure controls			
General advice:	General room ventilation plus local exhaust should be used to maintain exposure below TLV. Eyewash and emergency shower facilities recommended. Remove and wash contaminated clothing before reuse. Local authorities should be advised if significant spillages cannot be contained			

9. Physical and chemical properties 9.1 Information on basic physical and chemical properties Form: Granules Colour: Whitish Odour: Characteristic chlorine pH @ 20°C: 7.0 - 10% (aqueous solution) Melting Point Not Known Boiling point/boiling range: Not Applicable Vapour pressure: Not known Vapour density: Not known Specific gravity Not known Water solubility: 260 gm/litre @25 ^oC Partition coeffcient:n-octanol/water: Not known Flash point Not known Non explosive Contact with other material may cause fire Evaporation rate Not known Viscosity Not applicable 9.2 Other Information No further information

10. Stability and reactivity

10.1 Reactivity Reactivity

Warning! Do not use together with other products. May release dangerous gases (chlorine)

10.2 Chemical stability Chemical stability

No information available

(Continued on Page 5)

10. Stability and reactivity	
10.3 Possibility of hazardou	
Hazardous reactions:	Gives off hydrogen by reaction with metals. Reacts exothermic with water.
10.4 Conditions to avoid	
Conditions to avoid	Damp or slightly wet conditions may slowly liberate hazardous gases. (will gradually degenerate to Nitrogen Trichloride)
10.5 Incompatible materials	
Materials to avoid	Avoid contact with water on concentrated material in the container. Avoid contact with easily oxidisable material such as organic compounds, reducing agents, Nitrogen containing compounds, Sodium or Calcium hypochlorite, other oxidisers, acids and alkalis.
10.6 Hazardous decomposit	ion products
Haz. Decomp Products:	Decomposes above 240°C forming chlorine, nitrogen, trichloride, nitrogen oxides, carbon dioxide, cyanates and carbon monoxides.

11. Toxilogical Information

11.1 Information on toxilogical effects

LD50 (oral,rat) >1400 mg/kg LDLo (human) 3570 mg/kg

Inhalation: May cause respiratory tract irritation, shortness of breath, headache and delayed pulmonary oedema.

Contact with skin: Causes irritation - In cases of severe exposure, dermatitis may develop

Contact with eyes: Causes severe irritation - Can cause damage to the eyes

Carcinogenicity: No information available

Teratogenicity: No information available

Mutagenicity: No information available

12. Ecological Information

12.1 Toxicity

Highly toxic to aquatic life: DO NOT discharge into lakes, ponds or streams. DO NOT discharge into public waters unless in accordance with consent to discharge orders.

Acute toxicity

			Test
Fish	LC50	96h	1,000 mg/l
Daphnia magna	EC50	48h	1,000 mg/l

12.2 Persistence and degradability

Persistence and degradability: No data available

12.3 Bioaccumlative potential

Bioaccumlative potential: Not expected to bioaccumulate

12.4 Mobility in soil

Remarks:

Mobility in soil: soluble in water, predicted to have high mobility in soil.

12.5 Results of PBT and PvB assessment

PBT & PvB: No data available

12.6 Other adverse effects

Harmful effects to aquatic organisms due to pH shift

Neutralization is necessary before waste water is discharged into water treatment plants.

13. Disposal Considerations

13.1 Waste treatment methods

Disposal should be in accordance with local, state or national legislation Avoid release to the environment Do not allow to enter public sewers and watercourses This material and/or its container must be disposed of as hazardous waste Do not reuse empty containers without commercial cleaning or reconditioning

Classification

Waste Codes in accordance with the European Waste catalogue (EWC) are origin-defined. Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority

14. Transport Infor	mation		
14.1 UN Number		UN3077	
14.2 UN proper shipping name			VIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID N.O.S. 1 DICHLOROISOCYANURATE DIHYDRATE)
14.3 Transport ha	zard class(es)		
	Class	9	
	Classification Code	M7	
	Hazard label	90	
	Transport Category	3	
	Tunnel Code	Е	
	LQ	5kg	
14.4 Packaging G	roup	III	
14.5 Environmenta	al hazards		
	Environmentally Haz	ardous	Yes
	Marine Pollutant		Yes
14.6 Special preca	utions for user	Not applie	cable
The transportation o (road), RIL (rail), ICA	f this product, containi	ng sodium)T. It shoul	IARPOL 73/78 and the IBC Code N/a dichloroisocyanurate dihydrate, is not regulated by IMDG (sea), ADR d not be confused with Dichloroisocyanuric acid salts, UN2465, which i

15. Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for this substance or mixture. This Safety Data Sheet is provided in compliance with REACH Regulation (EC) No 1907/2006

15.2 Chemical Safety Assessment

No information available

16. Other information

H302	Harmful if swallowed.
H319	Causes serious eye irritation.
H335	May cause respiratory irritation.
H400	Very toxic to aquatic life.
H410	Very toxic to aquatic life with long lasting effects.
EUH031	Contact with acid liberates toxic gas

Restricted to professional users. Attention - Avoid exposure- obtain special instructions before use
