

Self Priming Pump strong and durable for above and in-ground pools.

The **BOISE** pump is designed to work under a vast type of conditions. It doesn't matter the pool type it always works delivering the requested flow and pressure.

**BOISE** is built to be easy to operate including features just like, see-through lid for easy inspection and a large strainer extends time between cleanings. Motor materials are rustproof, stainless steel motor shaft and sealed bearings that never need lubrication. Its thermoplastic housing withstands extreme heat and resist corrosion.

- Available from 0,33Hp up to 1,25Hp in single phase.
- **BOISE** is easy to maintain, see-through lid, large strainer and easy-to-remove drain plugs for fast winterization these and other features make it an all around pump.
- All the material have been selected with a unique target that is make **BOISE** Strong and Durable.
- Every **BOISE** pump is performance and pressure tested prior to shipment to ensure superior quality.
- Other options like 316SS shaft for salted water, 230V and 60Hz motors and Thai/Australian/British connections are available. For further information please contact us.
- TUV GS Certified
