

Decalcit Super

Viscous cleaner for removing calcium deposits on pool walls and floors.
Highly effective formula.

Use

Function of the product: pool cleaning

Decalcit Super removes persistent limestone and rust deposits as well as stains heavily embedded on the pool walls.

Product description

Liquid concentrate, cleaner and descaler

Contains: Hydrochloric acid (5–15%), Cationic surfactants (<5%), Perfumes

Dosing/instructions for use

- Descaling process to be carried out with an empty pool. Imperatively wet the walls before using Decalcit Super.
- Dilute, depending on the degree of scaling, at 1:5 (2 l for 10 l of water).

- Apply to the walls with a sponge.
- Leave on for 15 minutes, rinse with clear water and drain off the rinse water.
- For cleaning the joints, dilute the product at least at 0.2 l for 1 l of water, leave on for a maximum of 5 minutes, then rinse with plenty of water.

Important notes: To clean the joints, dilute the product at least 1:5, leave on for a maximum of 5 minutes, then rinse with plenty of water. Before use, test on a small surface.

Warnings: Do not use this product on materials/surfaces that are not resistant to acidic products (aluminum, untreated enamel, etc.). Do not allow the product to act on chrome parts; in case of contact with chrome, rinse immediately with plenty of water. Ventilate the rooms well during and after application. Never mix different chemicals in concentrated form. Always add the product to the water and never the other way round.

Ref.: 5513281

Weight: 3 l canister

Product benefits:

- 1 Contains a corrosion inhibitor, removes lime, scale and rust deposits
- 2 Quick and easy to use
- 3 Safe for acid-resistant surfaces

Comfort care
