Puripool® Super

Liquid, foam-free concentrate against algae growth and lime deposits to winterize of swimming pools.

Application purpose

Function of the product: Algae prevention.

Puripool® Super is a chlorine-stable, foam-free liquid preventing algae growth, lime and other dirt deposits in the pool during winter time. This makes the spring cleaning much easier.

Product description

Liquid concentrate, chlorine-stable.

Contains Polymer of N-methylmethanamine with (chloromethyl)oxirane (170 mg/g).

Compatible with all disinfection methods.

Application

- Before adding, check the pH-value with the BAYROL test strips or the BAYROL Pooltesters and adjust it, if necessary, to the ideal range of 7.0 to 7.4.
- Carry out a shock chlorination with Chlorifix® or Chloriklar® as well as a filter backwash.
- Then turn off the filter system and add 500 ml Puripool® Super per 10 m³ at various points directly into the pool.

Tip: Lower the water level under the nozzles when shutting down. Empty the pipes. Place ice buffers in the pool to balance the ice pressure. After adding Puripool® Super, you can still bathe.

Important information: Never mix chemicals with other chemicals, neither in solid form nor in concentrated solution!

After emptying in spring, do not allow remaining lime deposits to dry on, but spray them off immediately with plenty of water.

Do not drain water treated with Puripool® Super into fish waters without consulting the manufacturer.

Puripool® Super does not prevent the water from freezing.

Advantages:

1. Avoids lime and other dirts on to the surface
2. Prevents algae growth during winterizing
3. pH-neutral
4. As phosphate-free, does not bring any additional algae food
5. Contains no heavy metals and prevents damage to pool surfaces and built-in parts
6. Reduces the consumption of cleaning agents during the spring cleaning

1L bottle

Comfort Care

Dosing instructions

- **Recommended dosage:** 500 ml per 10 m³
- **Filter types:** all
- **Pool size:** all
- **Where:** directly into the water
- **When:** at the end of the season
