

Wave 300 XL Product Specifications

Cycle time	1-8 h
Cable	43 m / 50 m
Weight	25 kg
Suction rate	40 m ³ per hour
Linear speed	15 m per minute
Filtration	Triple-level pool filtration option for fine and rough dirt
Brushes	Dual-active brushes and 4 side brushes for intensive cleaning, matches all pool terrains
MMI	Interactive digital interface – selectable cleaning modes and on-line technical diagnostics
XL navigation system	Accurate gyro and compass system and scanning modes
Warranty	24 months or 3000 hours – whichever comes first

About Maytronics

Nobody knows robotic pool cleaners like Maytronics – the company behind industry-leading Dolphin robots. For more than 30 years, we have been developing robotic cleaning solutions for the world's swimming pools.

Starting in 1983, we pioneered automated electronic pool cleaning technology. Today, Maytronics remains the market leader, continually setting new standards for technological innovation, design and reliability.

In everything we do, we strive to make pool owners' and users' lives easier and more enjoyable.

Our goal: to enable an exceptional experience of a pure, clean, safe, and relaxing pool.

WAVE – THE TRUSTED NAME FOR COMMERCIAL POOL CLEANERS

Gain top-of-the-line, professional pool cleaning performance that meets the challenging requirements of the biggest and busiest pools. Dolphin WAVE 300 XL, from Maytronics, is the ideal robotic cleaner for large commercial pools and for Olympic centers, water parks and other sites with pools 25-60m in length.

Designed for long-lasting reliability with daily operation, Dolphin WAVE 300 XL excels at heavy-duty dirt collection and delivers the best end-to-end cleaning performance in its class. It works efficiently and effectively in any large pool, regardless of shape or type, including beach entry pools with sharply sloping floors and pools with islands.

Dolphin Wave 300 XL key features & advantages

Outstanding results:

- Optimized water suction flow ensures efficient dirt collection, leaving a perfectly clean path.
- Multiple scanning modes for optimized pool coverage.
- Line-by-line mode (line to the left/line to the right) – Ideal for limited cleaning time.
- “Criss-cross” mode – optimal for shaped pools; works with advanced obstacle escape mechanism, efficient, interruption-free operation in pools with islands and large obstacles.
- Advanced navigation system – With – highly accurate gyro and compass that together ensure complete pool coverage even in irregularly shaped and pools with obstacles, regardless of the frequency of interferences.
- Dual-active brushing system, with four small additional brushes dedicated to brushing along the pool’s wall sides and corners, completely removes all algae and bacteria.
- Crystal-clear filtration system with top-access for easy “click-clack” convenient maintenance and cleaning. Simple, user friendly triple-level filtration options for optimal dirt collection and water purification in all pool conditions.
- Fine filter bags efficiently trap day to day dirt.
- Ultra-fine filter bags collect fine dust particles.
- Wide-mesh filter net catches leaves and rough debris.

Easy to maintain

- MMI – interactive digital interface panel - with full filter bag indicator, operation delay, and modes of operation:
- Automatic operation of “Drive to pool” and “Drive home” allowing easy operation, with minimal hassle.
- Choice of programs displayed on a user-friendly LCD screen.
- Cycle time cleaning mode allows scanning programs to be programmed for up to 4 different pools
- Technician mode allows diagnosis and service at poolside via a built-in interface with USB connection.
- **Multipurpose Caddy with Auto Cable Release** - transports the robot and automatically releases just enough cable to reach the far end of the pool, preventing kinks and tangles, simply crank the reel to neatly rewind the cable.
- Remote control for manual maneuvering.
- Simple installation and quick start mode for daily operation.

Cost-effective, long-lasting value

- **Multi-pool cleaning** – setup of up to four different scanning modes and remote control IDs provides optimized cleaning of multiple different pools with a single robot.
- **Save precious time and minimize interruption with easy access and simple repair** – technician mode allows diagnosis and service at poolside via a built-in interface with USB connection.

Professional support and service

- Full warranty on all parts for 24 months or 3000 hours, whichever comes first. Maytronics also offers extended warranty programs. Please contact your dealer for details.
- Onsite training program provided by Maytronics product experts.
