Safe Swim® Meter

Digital testing for pools and hot tubs

Its simple hand held design makes testing at the pool side easy, even for beginners. The Safe Swim® meter is the perfect solution for maintaining a safe and healthy water balance, whilst making it seem effortless; with straightforward instructions, you'll have precise results in minutes!

- Accurate readings 
- Simplified testing 
- Safe and well balanced water 
- Supplied as a complete kit with test strip reagents 
- Compact, waterproof design (IP-67) 

1. Select the test you want to perform

2. Fill the cell and press zero

3. Press read and dip the test strip

4. Results available after countdown

No tablet crushing required - The strips combine the ease of dipping test strips with the accuracy of test tablets to provide a digital reading
