

The UK's leading swimming pool chemical brand

Blue Horizons Ultimate Stabilised Chlorine Granules

Ideal free chlorine range: 1 - 3mg/l (ppm)

Blue Horizons Ultimate Stabilised Chlorine Granules are an ideal product for daily disinfection of swimming pool water. They also contain a clarifier and algae inhibitor to help keep your pool water safe, sparkling and crystal clear.

APPLICATION INSTRUCTIONS

1. Maintain pH level within the ideal range of 7.2 – 7.6. If the not in this range, adjust.
2. This product may be applied directly to pools where temperatures exceed 20°C. If below this temperature or in doubt pre-dissolve this product in a clean plastic container at a maximum rate of 100g of product per 2.2 gallons (10lt) of water. Stir well to ensure product is fully dissolved. Add the resulting solution to the pool or spa whilst the pump(s) are turned 'on' preferably near the water inlets to aid distribution.
3. Repeat dose application if necessary to achieve ideal chlorine levels.
4. It is recommended that you periodically (e.g. weekly/fortnightly) shock (oxidise) your pool water, using Blue Horizons Pool Fusion, Rapid Shock, Granular Shock or Shock 'n' Floc.

Water Volumes		Daily Dose Rates	
		To increase Chlorine Level	
Litres	Gallons	1mg/l	3mg/l
4,545	1,000	9g	27g
13,646	2,500	23g	68g
22,725	5,000	45g	135g
45,450	10,000	90g	270g
68,175	15,000	135g	405g

NOTE: Hot weather, high pool use or heavy rain may require a higher daily dose rate.
