

**The UK's leading swimming pool chemical brand**

## Blue Horizons TA Raiser

Blue Horizons TA Raiser is a fine powder used for increasing the total alkalinity of your swimming pool.

**Total Alkalinity:** The Measure of the water's ability to resist pH change.

**Ideal TA range:** 80 – 150mg/l (ppm)

### APPLICATION INSTRUCTIONS

1. Pre-dissolve the product in a clean plastic container at a maximum rate of 100g of product per 2.2 gallons (10lts) of clean water. Stir well to ensure product is fully dissolved. Add the resulting solution to the pool whilst the pump(s) are turned "on", preferably near to the water inlets to aid distribution.
2. The total amount of TA Raiser can be applied in one application unless metals are present in pool water.

Dose rates		To increase total alkalinity by 10mg/l	To increase total alkalinity by 25mg/l
