

**The UK's leading swimming pool  
chemical brand**

## **Blue Horizons Waterline Cleaning Paste**

Blue Horizons Waterline Cleaning Paste is a highly effective cleaning paste used to remove body oils, fats and greases that form tide marks around waterlines. Waterline cleaning paste can be used on concrete, tiled, fibreglass and vinyl liner pool surfaces.

### **APPLICATION INSTRUCTIONS**

1. Lower the pool level to expose the area to be cleaned.
2. Use protective gloves and apply waterline cleaning paste using a suitable soft cleaning sponge, (as provided) brush or cloth. Wet the applicator before using the paste.
3. Apply to the area to be cleaned and wait for at least 2 minutes (this compound adheres to wall surfaces), then gently rub to clean.
4. Wash down cleaned surface area after use with water.
