

## Product Improvement Notification

November 17, 2015

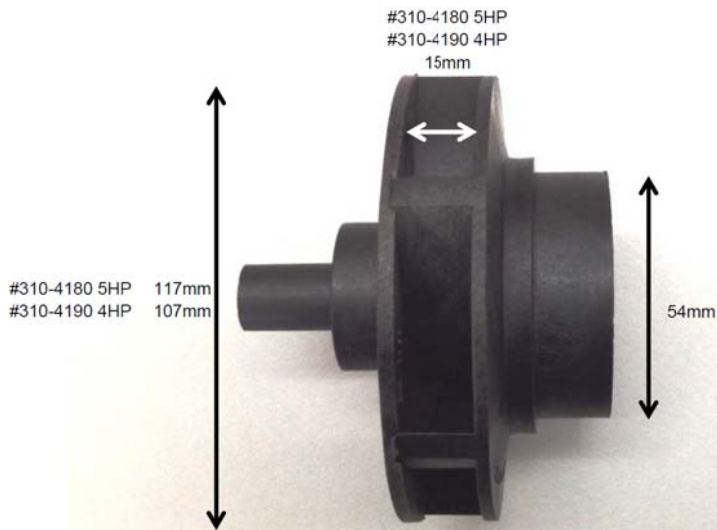

Products: 4HP and 5HP Executive Pump Impellers

Waterway has made a change to our 4HP and 5HP Executive Pump Impellers P/N's 310-4180 and 310-4190. The change improves the impeller's concentricity, reduces vibration which reduces wear on the pump and more importantly improves performance.

The new style impellers may look slightly different, but they are retroactive with the old impellers and will fit any Executive volute housings.

These new impellers are now being made only in black for easy recognition from the old ones.

This part change will be made for all future orders.

Old vs New Impeller Chart

HP	Old Impeller		New Impeller	
	Dia.	Width	Dia.	Width
4HP	117mm	12mm	107mm	15mm
5HP	117mm	16mm	117mm	15mm

Sincerely,
